

Nightingale Frontline Leadership Support Service

What is the Nightingale Frontline Leadership Support Service?

An opportunity for nurses and midwives, working at all levels of the organisation, to reflect upon their personal and professional challenges and gain emotional support from peers working across the UK in Health and Social Care.

What impact does the service have on Nurses and Midwives?

We helped over 1500 nurses and midwives with the service since we launched in April 2020. Feedback has been consistently positive and demonstrates the unique opportunity the sessions give for in-depth reflection, support and development which is provided by an independent and objective facilitator.

How is the service delivered?

In small groups via a virtual learning platform. Our expert facilitators are skilled in providing a psychologically safe learning space. Nurses and midwives connect with others from across the country to coach each other and benefit from sharing experiences and receiving reciprocated support. Sessions have a maximum of 6 participants and are 3 hours long. The sessions are scheduled throughout the whole week and run from 8am to 7pm.

Nightingale Frontline will provide remote, small group sessions offered to:

- Executive Directors of Nursing
- Senior Leaders
- Ward Managers/Team Leaders
- Student, Newly Registered Nurses/Midwives and Nursing Associates
- BAME Leaders
- Staff Nurses/Midwives
